

DDA Standards – commercial building impacts

- **Building Access - Shopping Centres:**
 - /50% accessible entries (including lifts in addition to travelators)
 - within the building (split level tenancies, food court seating, etc.)

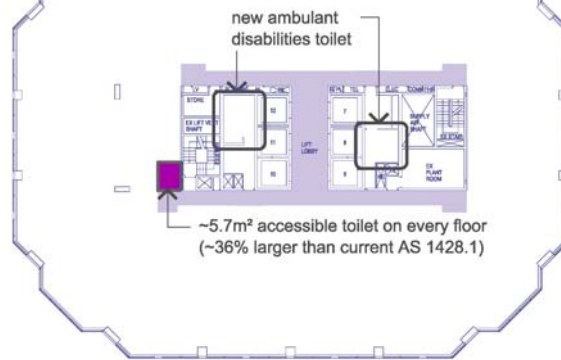

DDA Standards – commercial building impacts

- 80th vs. 90th Percentile -
 - new AS 1428.1 requires circulation space for 90th percentile
 - larger lifts and accessible toilets (ie. lost floor area)
 - (note - concession for existing buildings)
 - wider corridors and doorways (ie. lost floor area)
