

40:40:20

OUR COMMITMENT TO DIVERSITY

Our Committee Members help to shape the future for our industry through advocacy on policy and legislation, research, professional development and member events.

Being part of a Committee is a great way to strengthen your industry networks and expertise.

Our 40:40:20 campaign ensures our participation target of 40% women, 40% men, and 20% discretionary is met across our Committees.

We know that the best discussions, thinking and productivity occurs when there is diversity.
