Info Pack

Working alongside Property Council of Australia, LuckyDoor is your go to solution for lead generation and capture to increase the impact and ROI of your exhibit.

By building lead capture technology that can be in the hand of every salesperson and company representative wherever they are during National Retirement Living Summit, we're helping to ensure that no lead is forgotten or lost. We can also deliver more accurate and immediate information to your prospect, closing the gap between lead generation and follow up and ultimately closing that next deal.

LuckyDoor also enables the ability to brand and customise for greater visual impact, prize giving functions for better engagement and interaction, detailed analytics and data exporting plus unique performance tracking for teams and individuals. Our MODC digital business cards also go hand in hand with our lead generation and capture and will provide a spark to any conversation at the show.

We look forward to working alongside you all for National Retirement Living Summit
